

§ 93.06 – PLACEMENT AND HANDLING OF STORM-RELATED YARD DEBRIS

A. Storm-Related Yard Debris (storm debris) collection by Town personnel will occur after a storm event in which the Town was under a state of emergency. All property owners and residents are required to follow these rules in order to have their storm debris collected by the Town. This collection is for vegetative material only. The Town will not collect building/construction debris. The storm debris must be placed at the street right-of-way as soon after the event as possible. The Town will only make two sweeps through to collect storm debris.

B. Storm debris must be placed within the street right-of-way. The Town will not enter private property to pick up storm debris.

C. The placement of storm debris in plastic trash bags is prohibited.

D. You may use 30-gallon cans or 30-gallon brown paper lawn and refuse bags which are sold locally at home improvement and hardware stores.

E. All limbs must be bundled together with rope/twine.

F. The maximum limb length permitted is 4 feet and the maximum bundle weight is 50 pounds.

G. Debris or bundles not handled in the above required manner will not be collected.

H. Storm debris managed by a professional landscaper from lawns and property must be removed by that company. Debris determined to be left by professional landscapers will not be collected.

Adopted by the Town Council on April 21, 2020.
